

## American Power Conversion Corp.

- Energy efficient solutions for high-density heat loads
- InRow cooling solutions
- Hot Aisle Containment Systems (HACS)
- Integrated power, cooling and IT rack solutions

## KATHABAR

### Kathabar

- Desiccant dehumidification systems
- Liquid and dry systems

## Central Utility Plants

### TAS - Turbine Air Systems

- Modular chilled water plants and data centers
- Modular chilled water plants from 400-8,000 tons
- Modular data centers
- System efficiency and completion date guaranteed

### PermAlert

- Liquid leak detection in computer rooms, jet fuel systems, tank farms, clean rooms, laboratories, and more

### Carel

- Isothermic humidifiers: electrode steam, electric element steam, gas-fired steam, direct injection steam
- Adiabatic humidifiers: high pressure water atomizing, air/water atomizing, centrifugal atomizing

### ArctiChill

- Mission Critical Medical Chiller Systems
- Precise Laboratory Applications
- MRI Systems & CT Scanners

### SynapSense

- Data center wireless monitoring and energy management solutions
- LiveImaging™ capability
- Secure wireless sensor technology
- Real-time environmental data and energy analysis
- Carbon footprint reduction solutions

### Canatal

- DX systems
- Make-up air units starting at 150 CFM capacity
- Pool water heating options
- 250-10,000 CFM capacity
- Outside air connection
