

American Power Conversion Corp.

- 3-phase and single-phase online UPS from 250 VA - 2MW - PDU - SSW
- Generators
- Automatic transfer switches
- Power Distribution
- IT enclosures

Powersmiths

- Green high-energy-efficient isolation transformers
- Harmonic cancellation transformers
- Power stations

Active Power

- Reliable & green critical power & UPS systems from 130-3,600 kVA
- Up to 98% efficiency
- Multi-MegaWatt turnkey solutions
- DC energy storage
- Flywheel and thermal & compressed air energy storage

SynapSense

- Data center wireless monitoring and energy management solutions
- Live imaging capability
- Secure wireless sensor technology
- Real-time environmental data and energy analysis
- Carbon footprint reduction solutions

OnLine Power

- 3-phase and single-phase UPS and central lighting inverter from 3kVA-50kVA
- 3-phase and single-phase power conditioner from 1-1,250kVA
- PDU and remote PDU; Isolation transformers; Outdoor applications

Staco Energy

- Tailored Power Solutions
- Uninterruptible Power Supplies, Power Conditioners, Voltage Regulators, Power Factor Correction and Active Harmonic Filters
- World-class support—from our thorough applications assessment to our ability to deliver a solution to meet the specific needs of our customers.
- Professional, factory trained service team

Raritan

- Energy consumption management
- Data center visualization
- Centralized server management & remote office management

Power Distribution Incorporated - PDI

- PowerWave Bus System™
- PowerPak PDUs
- Branch Circuit Monitoring Systems
